

# Earth Observation Satellite Image Mosaic Products

Geoscience provides added-value contents by processing data from earth observation satellites.

## Technology

Color control

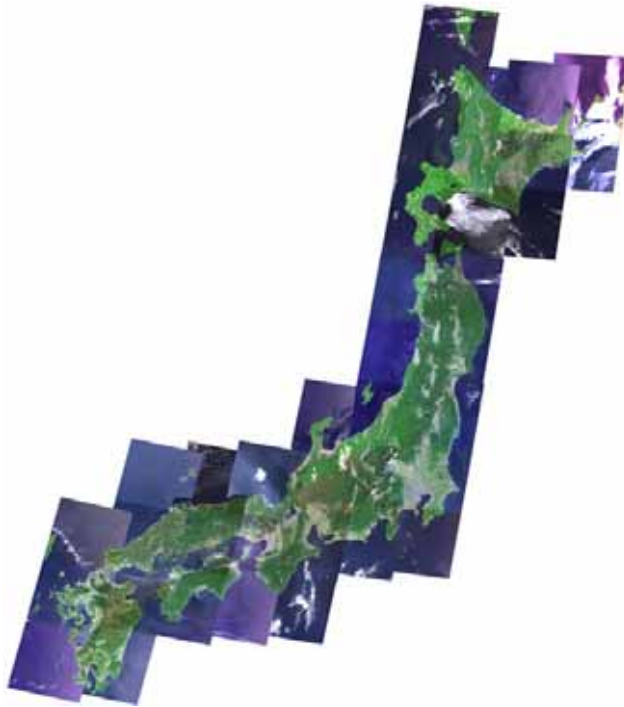

Software Programming

Mosaic & Geometric correction

Image Database

# LANDSAT 15m data base for all of Japan

- We have converted into mosaic over 100 scenes of LANDSAT ETM data. We have built a 15m resolution data base of almost completely cloudless satellite images of the Japanese islands.

(Before Color control & Mosaic)

(After Color control & Mosaic)

# 150m data base of the World

Resolution 150m ~
